WORK EXPERIENCE

Frontend Engineer February 2025 - Present
Playfull *California, USA*

- Led the rebrand of the website from Earn Alliance to Playfull ensuring updated SEO configurations that increased user engagement by 30%.
- Helped build the Avalanche Battle Pass and Pudgy Battle Pass that generated $500k each in revenue, ensuring a long term partnership with Avalanche, Magic Eden and Pudgy Penguins.
- Integrate a CRON job that crawls Steam's catalog for top trending, hot release and most played games that drove user engagement by 50%.
- Helped build the Tiktok Shop API that allow users access top games including 007 First Light, Elden Ring, Black Myth: Wukong, among other mainstream titles.
- Collaborate with both backend and product team with the help of AI to improve, fasten and streamline engineering and design processes.
- Ensured code quality through round-the-clock communication and code reviews.

Software Engineer December 2022 - July 2024
Tensfer *Delaware, USA*

- Developed a widget that connects the dashboard to an external app to get customer balances and transactions and aggregate them in one portfolio.
- Contributed to building the proprietary crypto payment system.
- Developed the company's website and implemented SEO best practices to ensure easy Google crawling.
- Developed the API documentation website and Blog website.
- Implemented a logging and monitoring system to track application performance in real time.

Junior Software Engineer July 2020 - July 2021
Revolut *Lisbon, Portugal*

- Implemented pixel perfect designs.
- Ensured Revolut works right, every time, by testing and engaging in grouped code reviews.
- Helped the senior engineers create and implement REST APIs.
- Helped migrate the company website from Laravel to React.

Junior Frontend Engineer Sep 2019 - March 2020
BuyPower (YC W17). *Abuja, Nigeria.*

- Learned about React functional components and React hooks (useState, useEffect, etc.).
- Engaged in group learning building simple applications like to-do lists and calculators.
